Loan Closet Needs Equipment

The Loan Closet, that for years has helped many people in our county, is in desperate need of hospital beds and wheel chairs. There have been requests for both these items and none are available at this time.

If you have been using any equipment from the Loan Closet and no longer need it, please return any and all equipment that you may have.

There is also a shortage of comode chairs, walkers and crutches in the Loan Closet, according to a spokesman from the Appomattox County Rescue Squad. The equipment is donated to the county by the Cancer Society and the Piedmont Heart Association to be used by the citizens of the county upon a request from a doctor. If you have, or know of anyone having, equipment not in use, please return it immediately.

OUR HEATING SYSTEM OFFERS EQUAL RIGHTS TO EVERYONE.

Where heating comfort is concerned, all people are not created equal. They're as different inside as they are outside. So the thermostat setting that's warm for one may be hot—or cold—for another.

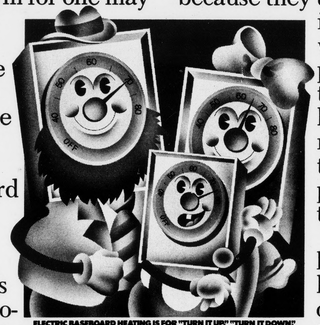
But there's one heating system that lets you please all of the people all of the time. Electric baseboard heat. Because it offers the one thing that guarantees everyone's comfort: a thermostat in every room.

With multi-thermostats, you can warm the bath and baby's room without overheating the rest of the house. You can lower the heat in the kitchen when you're cooking, or cut it way down in unused rooms to save electricity. And money.

But this room-by-room heat control isn't the only advantage. Electric baseboards give you clean, dependable, long-lived, trouble-free heating with no cold drafts or hot spots. And because they use electricity in the winter, when there's power to spare, they help you to hold down electric rates by balancing the demand for power throughout the year.

So if you're looking for a new house, or building one, ask the contractor about this flexible system. Or call your local Vepco office. They'll be happy to work with you and your builder to help you plan for electric baseboard heat.

Then all your relatives can be comfortable at once. Even though comfort is relative.



ELECTRIC BASEBOARD HEATING IS FOR "TURN IT UP" "TURN IT DOWN" AND "LEAVE IT WHERE IT IS" PEOPLE. ALL AT ONCE.

Approximately 200 guests were present for the banquet including players, their fathers, cheerleaders and coaches.

Players Of The Week

Bobby Layne and Charlie Gunter have been named players of the week for their performances in the Raider - Altavista game played on Friday night, November 10th. Both players will receive a dinner compliments of Maude's Restaurant.

Both Layne and Gunter are Seniors and were playing their last game for the ACHS Team.

Layne, on the left, quarterback, is a two-year letterman, has been named player of the week three times this season. He was chosen by the coaching staff this time for his fine performance against Altavista in this last game of the season. Layne went over the 1,000 yard mark passing for the season. In the Raider-Altavista game, he passed for one touchdown and completed 10 out of 16 passes attempted. He is also a Varsity Basketball player.

Gunter, on the right, is a three-year letterman playing offensive left guard and defensive middle guard. He did a fine job with trap blocking and on pass protection for quarterback, Layne. This is the first year Gunter has played offense and he filled a gapping hole in the offensive line. He will be missed next year, according to the coaches at ACHS.
